Index of Authors

Note. Pages in *Proceedings of The Biochemical Society* are distinguished by P.

ADAMS, D. H. & BURGESS, E. A. Some factors affecting the permeability of large-granule membranes to mouse-liver catalase *in vitro* 247

ALDRIDGE, W. N., EMERY, R. C. & STREET, B. W. A tissue homogenizer 326

ANDERSON, A. J., LEPPER, M. H. & WINZLER, R. J. The fractionation of urine colloids on anion-exchange cellulose 581

ANDERSON, J. D., HOUGH, L. & PRIDHAM, J. B. The reaction of carbohydrases with phenolic glucosides 564

ANTONINI, E. *see* GIBSON, Q. H. 328

ARNON, D. I., LOSADA, M., NOZAKI, M. & TAGAWA, K. Photofixation of nitrogen and photoproduction of hydrogen by thiosulphate during bacterial photosynthesis 23P

ARNON, R. *see* SELA, M. 394

BACH, S. J. & KILLIP, J. D. The crystallization and properties of hepatic arginase of ox, sheep and horse 7P

BACHRACH, U. Metabolism of amines. 3. The degradation and synthesis of γ-aminobutyric acid by *Pseudomonas aeruginosa* 417

BAIRD, G. D. & PERRY, S. V. The inhibitory action of relaxing-factor preparations on the myofibrillar adenosine triphosphatase 262

BATCHELOR, A. *see* GOLBERG, L. 252

BATT, R. D., DICKENS, F. & WILLIAMSON, D. H. Tetrose metabolism. 1. The preparation and degradation of specifically labelled [^{14}C]tetroses and [^{14}C]tetritols 272

BATT, R. D., DICKENS, F. & WILLIAMSON, D. H. Tetrose metabolism. 2. The utilization of tetroses and tetritols by rat tissues 281

BAULD, W. S. *see* GIVNER, M. L. 400, 406

BELLETT, A. J. D. & BURNESS, A. T. H. Sites of synthesis of s nucleic acid and a protein in infected Krebs-2 ascites tumour cells 17P

BERGMANN, F. & RIMON, S. Fractionation of C-esterase from the hog's kidney extract 209

BIANCHI, P., BUTLER, J. A. V., CRATHORN, A. R. & SHOOTER, K. V. Some characteristics of the phosphorylating kinases of neoplastic and normal cells 15P

BLABER, L. C. & CREASEY, N. H. The mode of recovery of cholinesterase activity *in vivo* after organophosphorus poisoning. 1. Erythrocyte cholinesterase 591

BLABER, L. C. & CREASEY, N. H. The mode of recovery of cholinesterase activity *in vivo* after organophosphorus poisoning. 2. Brain cholinesterase 597

BLAKLEY, R. L. A spectrophotometric study of the reaction catalysed by serine transhydroxymethylase 459

BLASS, J. P. The simple monosubstituted guanidines of mammalian brain 484

BLOXAM, H. R., DAY, M. G., GIBBS, N. K. & WOOLF, L. I. An inborn defect in the metabolism of tyrosine in infants on a normal diet 320

BOND, P. A. *see* FINCHAM, J. R. S. 96

BOOTH, J., BOYLAND, E., SATO, T. & SIMS, P. Metabolism of polycyclic compounds. 17. The reaction of 1:2-dihydronaphthalene and 1:2-epoxy-1:2:3:4-tetrahydronaphthalene with glutathione catalysed by tissue preparations 182

BOWEN, H. J. M. The determination of tungsten in biological material by activation analysis 79

BOYLAND, E. & SIMS, P. Metabolism of polycyclic compounds. 16. The metabolism of 1:2-dihydronaphthalene and 1:2-epoxy-1:2:3:4-tetrahydronaphthalene 175

BOYLAND, E. *see also* BOOTH, J. 182

BRIGGS, D. E. Biochemical studies with methanesulphonyl esters, especially β-chloroethyl methanesulphonate 186

BROOKES, P. & LAWLEY, P. D. The reaction of mustard gas with nucleic acids *in vitro* and *in vivo* 478

BROSTOFF, D. V., MOSES, V. & SMITH, M. J. H. Salicylate congeners and uncoupling activity 5P

BUNYAN, J., GREEN, J., EDWIN, E. E. & DIPLOCK, A. T. Studies on vitamin E. 5. Lipid peroxidation in dialuric acid-induced haemolysis of vitamin E-deficient erythrocytes 47

BURDON, R. H. Studies on the biosynthesis of ribonucleic acid 14P

BURGESS, E. A. *see* ADAMS, D. H. 247

BURNESS, A. T. H. *see* BELLETT, A. J. D. 17P

BURT, J. R. Phosphorylation of some analogues of fructose by yeast hexokinase 16P

BURTON, K. Frequencies of nucleotide sequences in deoxyribonucleic acids 547

BURTON, K. *see also* FESSLER, L. I. 558

BUSH, I. E. & HOCKADAY, T. D. R. Paper chromatography of some 2:4-dinitrophenylhydrazones in acid systems 7P

BUTLER, J. A. V. *see* BIANCHI, P. 15P; JOHNS, E. W. 631

CAMPBELL, J. W. Pyrimidine metabolism in parasitic flatworms 105

CANELLAKIS, E. S. Pyrophosphorolysis of soluble ribonucleic acid 14P

CANTLEY, M. & HOUGH, L. The periodate oxidation of amino sugars and related compounds 6P

CARPENTER, K. J. The estimation of the available lysine in animal-protein foods 604

CESSI, C. & PILIEGO, F. The determination of amino sugars in the presence of amino acids and glucose 508

CHAPLEN, P. & THOMAS, R. Studies in the biosynthesis of fungal metabolites: the biosynthesis of palitantin 91

COLLINS, J. F. & KORNBERG, H. L. The metabolism of C_2 compounds in micro-organisms. 4. Synthesis of cell materials from acetate by *Aspergillus niger* 430

COOK, R. P. *see* GREIG, M. 16P

COOKE, B. A. & TAYLOR, W. 'Conjugate' formation during the metabolism of [4-^{14}C]progesterone by female-rat liver *in vitro* 21P

Index of Subjects

Note. Pages in *Proceedings of The Biochemical Society* are distinguished by P.

Acacia mollissima, biochemical and stereochemical interrelationships of (+)-fustin from (Roux, D. G. & Paulus E.) 315

Acetate, biosynthesis of cell materials from, in *Escherichia coli* (Kornberg, H. L., Phizackerley, P. J. R. & Sadler, J. R.) 438

[1-^{14}C]Acetate, incorporation of, into palitantin (Chaplen, P. & Thomas, R.) 91

Acetate, synthesis of cell materials from, by *Aspergillus niger* (Collins, J. F. & Kornberg, H. L.) 430

Acetyl content of hen's-egg albumin (Johansen, P. G., Marshall, R. D. & Neuberger, A.) 239

β-*N*-Acetylglucosaminidase, purification of, from pig epididymis (Findlay, J. & Levvy, G. A.) 170

Acid phosphatase in tissues of animals injected with iron (Golberg, L., Martin, L. E. & Batchelor, A.) 252

Actin sulphate in rat liver (Spencer, B.) 294

Adenosine 3′-phosphate 5′-sulphatophosphate in rat liver (Spencer, B.) 294

Adenosine 3′-phosphate 5′-sulphatophosphate in fungi (Spencer, B. & Harada, T.) 305

Adenosine 5′-sulphatophosphate in rat liver (Spencer, B.) 249

Adenosine triphosphatase, myofibrillar, inhibitory action of relaxing-factor preparations on (Baird, G. D. & Perry, S. V.) 262

Adipose tissue, rat, and 1:1:1-trichloro-2:2-di-(*p*-chlorophenyl)ethane (DDT) (Parker, V. H.) 74

Adipose tissue, rat, effect of changes in nutritional state on clearing-factor lipase activity of homogenates and extracts of (Robinson, D. S. & Salaman, M R.) 8P

β-Alanine, production of, by rat tapeworm (Campbell, J. W.) 105

β-Alanyl peptide, synthesis of (Stenesh, J. J. & Winnick, T.) 575

Albumin, hen's-egg, hexose, hexosamine, acetyl and amide-nitrogen content of (Johansen, P. G., Marshall, R. D. & Neuberger, A.) 239

Alcohol dehydrogenase of liver, oxidation of β-phenylethanol by (MacLeod, L. D.) 10P

7-Alkylguanine, synthesis of (Brookes, P. & Lawley, P. D.) 478

Alloxan-diabetes, influence of, on incorporation of amino acids into protein of rat diaphragm (Manchester, K. L. & Young, F. G.) 386

Amide-nitrogen content of hen's-egg albumin (Johansen, P. G., Marshall, R. D. & Neuberger, A.) 239

Amino acid analogues, immunological properties of exopenicillinase synthesized by *Bacillus cereus* 569/H in the presence of (Richmond, M. H.) 112

Amino acid sequence around the reactive serine residue of some proteolytic enzymes (Naughton, M. A., Sanger, F., Hartley, B. S. & Shaw, D. C.) 149

Amino acid-activating enzymes in muscle (Pennington, R. J.) 205

Amino acids, determination of amino sugars in the presence of (Cessi, C. & Piliego, F.) 508

Amino acids, effect of phosphodiesterase on capacity of soluble ribonucleic acid to accept (Herbert, E.) 14P

Amino acids, influence of alloxan-diabetes on incorporation of, into protein of rat diaphragm (Manchester, K. L. & Young, F. G.) 386

Amino acids, radioactive, incorporation of, into proteins of microsome fraction of guinea-pig liver (Simkin, J. L. & Sutton, C. R.) 489

γ-Aminobutyric acid, degradation and synthesis of, by *Pseudomonas aeruginosa* (Bachrach, U.) 417

β-Amino*iso*butyric acid, production of, by rat tapeworm (Campbell, J. W.) 105

2-Amino-1-naphthyl hydrogen sulphate as metabolite of naphthylamine (Goldblatt, M. W., Henson, A. F. & Somerville, A. R.) 511

Aminophenol, excretion of, in rabbits (Parke, D. V.) 493

o-Aminophenol, mechanism of conjugation of, in plants and an insect (Dutton, G. J. & Duncan, A. M.) 18P

Amino sugars, a distillation method for extraction of (Cessi, C. & Piliego, F.) 508

Amino sugars and related compounds, periodate oxidation of (Cantley, M. & Hough, L.) 6P

Amino sugars, determination of, in the presence of amino acids and glucose (Cessi, C. & Piliego, F.) 508

β-Amylase, inhibition and action pattern of, in the presence of maltose (Misra, U. K. & French, D.) 1P

[^{14}C]Aniline, metabolism of, in animals (Parke, D. V.) 493

Animal-protein foods, estimation of available lysine in (Carpenter, K. J.) 604

Antigens, role of rigidity in function of polypeptidyl gelatins as (Sela, M. & Arnon, R.) 394

Anti-inflammatory drugs and intermediary metabolism (Moses, V. & Smith, M. J. H.) 5P

Arbutin, formation of *p*-hydroxyphenyl β-gentiobioside from (Anderson, J. D., Hough, L. & Pridham, J. B.) 564

Arginine of mammalian brain (Blass, J. P.) 484

Arginine-rich histones, improved fractionations of, from calf thymus (Johns, E. W., Phillips, D. M. P., Simpson, P. & Butler, J. A. V.) 631

Argininosuccinic acid, formation of cyclic anhydrides in aqueous solution of (Westall, R. G.) 135

Argininosuccinic aciduria (Westall, R. G.) 135

Ascites-tumour cells, infected Krebs-2, sites of synthesis of a nucleic acid and a protein in (Bellett, A. J. D. & Burness, A. T. H.) 17P

Ascites tumour, Ehrlich, reaction *in vitro* and *in vivo* of nucleic acids of, with mustard gas (Brookes, P. & Lawley, P. D.) 478

Aspartyl peptides, interconversion of α- and β-forms during hydrolysis of (Naughton, M. A., Sanger, F., Hartley, B. S. & Shaw, D. C.) 149

Aspergillus niger, synthesis of cell materials from acetate by (Collins, J. F. & Kornberg, H. L.) 430

Bacillus cereus 569/H, immunological properties of exopenicillinase synthesized by, in the presence of amino acid analogues (Richmond, M. H.) 112

Bacillus cereus 569/H, incorporation of DL-β-(*p*-fluorophenyl)[β-^{14}C]alanine into exopenicillinase by (Richmond, M. H.) 121

Bacillus megaterium, reaction *in vitro* and *in vivo* of nucleic acids of, with mustard gas (Brookes, P. & Lawley, P. D.) 478

Bacteriophage deoxyribonucleic acid, biosynthesis of (Fessler, L. I.) 16P

Bacteriophage T2, synthesis of protein in a purine-requiring *Escherichia coli* infected with (Fessler, L. I., Kelemen, M. V. & Burton, K.) 558

Black-wattle heartwood, biochemical and stereochemical interrelationships of (+)-fustin from (Roux, D. G. & Paulus, E.) 315

Bones of hyperparathyroid monkeys, phosphatase activity in (Jeffree, G. M.) 2P
Brain cholinesterase, mode of recovery *in vivo* of, after organophosphorus poisoning (Blaber, L. C. & Creasey, N. H.) 597
Brain, effect of growth on chemical composition of (Widdowson, E. M. & Dickerson, J. W. T.) 30
Brain kephalins, preparation of hydrophilic colloids of (Kimura, Y. & Nagai, Y.) 1
Brain, mammalian, simple monosubstituted guanidines of (Blass, J. P.) 484
Brain phosphatidylserine, infrared spectra of (Kimura, Y. & Nagai, Y.) 3
Brain, rat, intracellular distribution of glycolytic enzymes in homogenates and mitochondrial preparations from (Johnson, M. K.) 610
Butterfat, isolation of *cis*-Δ^9-heptadecenoic acid from (Hansen, R. P., Shorland, F. B. & Cooke, N. J.) 64

Caeruloplasmin, effects of ions and chelating agents on oxidase activity of (Curzon, G.) 66
Carbohydrases, reaction of, with phenolic glucosides (Anderson, J. D., Hough, L. & Pridham, J. B.) 564
Cardiac muscle, effect of growth on chemical composition of (Widdowson, E. M. & Dickerson, J. W. T.) 30
Carnosine–anserine synthetase of muscle, partial purification of (Stenesh, J. J. & Winnick, T.) 575
Cartilage, ion-exchange reactions between cations and (Dunstone, J. R.) 164
Catalase activity, enzymic composition of nuclei isolated from radio-sensitive and non-sensitive tissues with special reference to (Creasey, W. A.) 5
Cations, ion-exchange reactions between cartilage and (Dunstone, J. R.) 164
Cell differentiation, changes in two microsomal components accompanying (Loening, U. E.) 20P
Cell materials, biosynthesis of, from acetate in *Escherichia coli* (Kornberg, H. L., Phizackerley, P. J. R. & Sadler, J. R.) 438
Cell materials, synthesis of, from acetate by *Aspergillus niger* (Collins, J. F. & Kornberg, H. L.) 430
Cellulose, anion-exchange, fractionation of urine colloids on (Anderson, A. J., Leppers, M. H. & Winzler, R. J.) 581
Cell wall of *Hydrodictyon africanum*, chemical composition and structure of (Northcote, D. H., Goulding, K. J. & Horne, R. W.) 503
Cells, mammalian, inhibitor studies on time sequence of nucleic acid and protein synthesis in (Paul, J. & Hagiwara, A.) 21P
Cells, normal, some characteristics of phosphorylating kinases of (Bianchi, P., Butler, J. A. V., Crathorn, A. R. & Shooter, K. V.) 15P
Cerebral cortex, subcellular distribution of gangliosides in (Wolfe, L. S.) 9P
Cerebral tissues, phosphoprotein phosphatase in (Rose, S. P. R. & Heald, P. J.) 8P
Chelating agents, effects of ions and, on oxidase activity of caeruloplasmin (Curzon, G.) 66
β-Chloroethyl methanesulphonate, biochemical studies with (Briggs, D. E.) 186
Chloroplasts, illuminated, protein from leaves catalysing reduction of metmyoglobin and triphosphopyridine nucleotide by (Davenport, H. E.) 471
Chloroplasts, spinach, synthesis of glycollic acid by (Zelitch, I.) 11P
Cholesterol, determination of, in faecal lipids (Gerson, T.) 446
'Cholesterol', nature of, in normal human-blood plasma (Greig, M. & Cook, R. P.) 16P
Cholinesterase, brain, mode of recovery *in vivo* of, after organophosphorus poisoning (Blaber, L. C. & Creasey, N. H.) 597
Cholinesterase, erythrocyte, mode of recovery *in vivo* of, after organophosphorus poisoning (Blaber, L. C. & Creasey, N. H.) 591
Choline sulphate, role of, in sulphur metabolism of fungi (Spencer, B. & Harada, T.) 305
Choline sulphokinase in fungi (Spencer, B. & Harada, T.) 305
Chondroitin sulphate in fungi (Spencer, B. & Harada, T.) 305
Chymotrypsin, di*iso*propylphosphoryl derivatives of (Naughton, M. A., Sanger, F., Hartley, B. S. & Shaw, D. C.) 149
*iso*Citratase of *Aspergillus niger* (Collins, J. F. & Kornberg, H. L.) 430
*iso*Citratase of *Escherichia coli* (Kornberg, H. L., Phizackerley, P. J. R. & Sadler, J. R.) 438
Citrullus vulgaris, *see* Water melon
Cobalamin and enzymic formation of a factor concerned in synthesis of methionine by *Escherichia coli* (Guest, J. R. & Woods, D. D.) 422
Codling muscle, acid-soluble nucleotides of (Jones, N. R. & Murray, J.) 567
Colloids, hydrophilic, of brain kephalins, preparation of (Kimura, Y. & Nagai, Y.) 1
Coprosterol, determination of, in faecal lipids (Gerson, T.) 446
Cytochrome, effects of prolonged oxygenation on enzyme systems and, of *Torula* (Scutt, P. B.) 6P
Cytochrome *c*-551, *Pseudomonas*, crystalline, preparation and general properties of (Horio, T., Higashi, T., Sasagawa, M., Kusai, K., Nakai, M. & Okunukki, K.) 194

DDT *see* 1:1:1-Trichloro-2:2-di-(*p*-chlorophenyl)ethane
Deoxyribonucleic acid, bacteriophage, biosynthesis of (Fessler, L. I.) 16P
Deoxyribonucleic acid, biosynthesis of (Smellie, R. M. S.) 15P
Deoxyribonucleic acids, frequencies of nucleotide sequences in (Burton, K.) 547
Dialuric acid-induced haemolysis of vitamin E-deficient erythrocytes, lipid peroxidation in (Bunyan, J., Green, J., Edwin, E. E. & Diplock, A. T.) 47
Diaphorase (lipoyl dehydrogenase), intermediates in catalytic action of (Massey, V., Gibson, Q. H. & Veeger, C.) 341
Diaphragm, rat, influence of alloxan-diabetes on incorporation of amino acids into protein of (Manchester, K. L. & Young, F. G.) 386
Dichapetalum toxicarium, chemical nature of toxic compounds containing fluorine in seeds of (Peters, R. A., Hall, R. J., Ward, P. F. V. & Sheppard, N.) 17
1:2-Dihydronaphthalene, metabolism of (Boyland, E. & Sims, P.) 175
1:2-Dihydronaphthalene, reaction of, with glutathione catalysed by tissue preparations (Booth, J., Boyland, E., Sato, T. & Sims, P.) 182
Dihydroxy[^{14}C]acetone, enzymic phosphorylation of (Batt, R. D., Dickens, F. & Williamson, D. H.) 281
2:4-Dinitrophenylhydrazones, paper chromatography of, in acid systems (Bush, I. E. & Hockaday, T. D. R.) 7P
Dipeptides, hydrolysis of, by different regions of rat small intestine (Robinson, G. B. & Shaw, B.) 351

Egg albumin, content of hexose, hexosamine, acetyl and amide-nitrogen (Johansen, P. G., Marshall, R. D. & Neuberger, A.) 239
Elastase, di*iso*propoxy[^{32}P]phosphinyl derivatives of (Naughton, M. A., Sanger, F., Hartley, B. S. & Shaw, D. C.) 149
Epididymis, pig, purification of β-*N*-acetylglucosaminidase from (Findlay, J. & Levvy, G. A.) 170
1:2-Epoxy-1:2:3:4-tetrahydronaphthalene, metabolism of (Boyland, E. & Sims, P.) 175

1:2-Epoxy-1:2:3:4-tetrahydronaphthalene, reaction of, with glutathione catalysed by tissue preparations (Booth, J., Boyland, E., Sato, T. & Sims, P.) 182
Erythrocyte cholinesterase, mode of recovery *in vivo* of, after organophosphorus poisoning (Blaber, L. C. & Creasey, N. H.) 591
Erythrocyte 'ghosts', phospholipids of (Dawson, R. M. C., Hemington, N. & Lindsay, D. B.) 226
Erythrocyte haemolysates in pernicious anaemia, reduction of oxidized glutathione in (Jocelyn, P. C.) 363
Erythrocytes, oxygenated, effect of protein solutions on oxidation of glutathione in (Jocelyn, P. C.) 368
Erythrocytes, vitamin E-deficient, lipid peroxidation in dialuric acid-induced haemolysis of (Bunyan, J., Green, J., Edwin, E. E. & Diplock, A. T.) 47
D-[4-^{14}C]Erythrose, preparation of (Batt, R. D., Dickens, F. & Williamson, D. H.) 272
L-Erythrulose, preparation of specifically labelled (Batt, R. D., Dickens, F. & Williamson, D. H.) 272
Escherichia coli, biosynthesis of cell materials from acetate in (Kornberg, H. L., Phizackerley, P. J. R. & Sadler, J. R.) 438
Escherichia coli, cobalamin and enzymic formation of a factor concerned in synthesis of methionine by (Guest, J. R. & Woods, D. D.) 422
Escherichia coli infected with bacteriophage T2, purine-requiring, synthesis of protein in a (Fessler, L. I., Kelemen, M. V. & Burton, K.) 558
Escherichia coli, nitrate reductase and related enzymes in (Heredia, C. F. & Medina, A.) 24
C-Esterase, fractionation of, from hog-kidney extract (Bergmann, F. & Rimon, S.) 209
Etroplus suratensis, purification and properties of a protease from gut of (Sundaram, S. & Sarma, P. S.) 465
Exopenicillinase, immunological properties of, synthesized by *Bacillus cereus* 569/H in the presence of amino acid analogues (Richmond, M. H.) 112
Exopenicillinase, incorporation of DL-β-(*p*-fluorophenyl)-[β-^{14}C]alanine into, by *Bacillus cereus* 569/H (Richmond, M. H.) 121

Fatty acid composition of lecithin and kephalin fractions of ox-spleen phospholipids (Gray, G. M.) 82
Fatty acid composition of phospholipids from subcellular particles of rat liver (Macfarlane, M. G., Gray, G. M. & Wheeldon, L. W.) 626
Fatty aldehyde composition of lecithin and kephalin fractions of ox-spleen phospholipids (Gray, G. M.) 82
Fisetin, radial distribution of, in wattle heartwood (Roux, D. G. & Paulus, E.) 315
Flatworms, parasitic, pyrimidine metabolism in (Campbell, J. W.) 105
Fluorine, chemical nature of toxic compounds containing, in seeds of *Dichapetalum toxicarium* (Peters, R. A., Hall, R. J., Ward, P. F. V. & Sheppard, N.) 17
ω-Fluorodecanoic acid, nuclear-magnetic-resonance spectrum of (Sheppard, N.) 22
Fluoro-octadecenoic acid of unknown structure, nuclear-magnetic-resonance spectrum of (Sheppard, N.) 22
ω-Fluoro-oleic acid, isolation of, from seeds of *Dichapetalum toxicarium* (Peters, R. A., Hall, R. J., Ward, P. F. V. & Sheppard, N.) 17
DL-β-(*p*-Fluorophenyl)[β-^{14}C]alanine, incorporation of, into exopenicillinase by *Bacillus cereus* 569/H (Richmond, M. H.) 121
5-Fluorouracil biosynthesis by *Staphylococcus aureus* (Rogers, H. J. & Perkins, H. R.) 448
Fructose, phosphorylation by yeast hexokinase of some analogues of (Burt, J. R.) 16P
Fungi, role of choline sulphate in sulphur metabolism of (Spencer, B. & Harada, T.) 305

(+)-Fustin from black-wattle heartwood, biochemical and stereochemical interrelationships of (Roux, D. G. & Paulus, E.) 315

Gadus callarias, *see* Codling
Galactosamine, absence of, in scorbutic granulation tissue (Hughes, R. E. & Kodicek, E.) 3P
Gangliosides, subcellular distribution of, in cerebral cortex (Wolfe, L. S.) 9P
Globin and haem derivatives, kinetic studies on reaction between (Gibson, Q. H. & Antonini, E.) 328
Glucosamine, presence of, in hen's-egg albumin (Johansen, P. G., Marshall, R. D. & Neuberger, A.) 239
Glucose, determination of amino sugars in the presence of (Cessi, C. & Piliego, F.) 508
Glucose in cell wall of *Hydrodictyon africanum* (Northcote, D. H., Goulding, K. J. & Horne, R. W.) 503
Glucose 6-phosphate dehydrogenase, activity of, in rat uterus (Scott, D. B. M. & Lisi, A. G.) 52
Glucose uptake, insulin and an inhibitor of, in protein fractions of normal human plasma (Vargas, L., Taylor, K. W. & Randle, P. J.) 43
Glucosides, phenolic, reaction of carbohydrases with (Anderson, J. D., Hough, L. & Pridham, J. B.) 564
Glucuronide synthesis in skin, mechanism of (Stevenson, I. H. & Dutton, G. J.) 19P
Glutamic acid dehydrogenase, further genetic variety of, in *Neurospora crassa* (Fincham, J. R. S. & Bond, P. A.) 96
Glutathione in oxygenated erythrocytes, effect of protein solutions on oxidation of (Jocelyn, P. C.) 368
Glutathione, oxidized, reduction of, in erythrocyte haemolysates in pernicious anaemia (Jocelyn, P. C.) 363
Glutathione, reaction of 1:2-dihydronaphthalene and 1:2-epoxy-1:2:3:4-tetrahydronaphthalene with, catalysed by tissue preparations (Booth, J., Boyland, E., Sato, T. & Sims, P.) 182
D- and L-[3-^{14}C]Glycerate, metabolism of, by liver tissue of rat (Dickens, F. & Williamson, D. H.) 356
Glycine and glyoxylate, non-enzymic transamination between (Fleming, L. W. & Crosbie, G. W.) 23P
Glycocyamine of mammalian brain (Blass, J. P.) 484
Glycogen, distribution of ^{14}C incorporated from specifically labelled tetroses and tetritols in (Batt R. D., Dickens, F. & Williamson, D. H.) 281
[2-^{14}C]Glycolaldehyde, preparation of (Batt, R. D., Dickens, F. & Williamson, D. H.) 272
Glycollic acid, synthesis of, by spinach chloroplasts (Zelitch, I.) 11P
Glycolytic enzymes, intracellular distribution of, in rat-brain homogenates and mitochondrial preparations (Johnson, M. K.) 610
Glyoxylate and glycine, non-enzymic transamination between (Fleming, L. W. & Crosbie, G. W.) 23P
Growth, effect of, on chemical composition of soft tissues (Widdowson, E. M. & Dickerson, J. W. T.) 30
Guanidines, simple monosubstituted, of mammalian brain (Blass, J. P.) 484
γ-Guanidobutyric acid of mammalian brain (Blass, J. P.) 484
Guanine, reaction of, with mustard gas (Brookes, P. & Lawley, P. D.) 478
Guanosine, reaction of, with mustard gas (Brookes, P. & Lawley, P. D.) 478

Haem derivatives, kinetic studies on reaction between native globin and (Gibson, Q. H. & Antonini, E.) 328
Haemoglobin, reactions of aromatic *C*-nitroso compounds with (Gibson, Q. H.) 519
Haemoglobins, major, four, identification of, in one individual (Raper, A. B., Gammack, D. B., Huehns, E. R. & Shooter, E. M.) 10P
Hepatic arginase, crystallization and properties of, of ox, sheep and horse (Bach, S. J. & Killip, J. D.) 7P

cis-Δ^9-Heptadecenoic acid, isolation of, from butterfat (Hansen, R. P., Shorland, F. B. & Cooke, N. J.) 64
Hexokinase, activity of, in rat uterus (Scott, D. B. M. & Lisi, A. G.) 52
Hexokinase, yeast, phosphorylation of some analogues of fructose by (Burt, J. R.) 16P
Hexosamine content of hen's-egg albumin (Johansen, P. G., Marshall, R. D. & Neuberger, A.) 239
Hexose content of hen's-egg albumin (Johansen, P. G., Marshall, R. D. & Neuberger, A.) 239
Histones, arginine-rich, improved fractionations of, from calf thymus (Johns, E. W., Phillips, D. M. P., Simpson, P. & Butler, J. A. V.) 631
Homogenizer, tissue (Aldridge, W. N., Emery, R. C. & Street, B. W.) 326
Hydrodictyon africanum, chemical composition and structure of cell wall of (Northcote, D. H., Goulding, K. J. & Horne, R. W.) 503
Hydrogen, photoproduction of, by thiosulphate during bacterial photosynthesis (Arnon, D. I., Losada, M., Nozaki, M. & Tagawa, K.) 23P
o-Hydroxybenzyl β-glucopyranoside, synthesis of, from salicin by action of β-glucosidase (Anderson, J. D., Hough, L. & Pridham, J. B.) 564
7-(β-Hydroxyethylthioethyl)guanine, synthesis of (Brookes, P. & Lawley, P. D.) 478
16α-Hydroxyoestrone, quantitative fractionation of mixtures of, with other oestrogens (Givner, M. L., Bauld, W. S. & Vagi, K.) 400
p-Hydroxyphenylacetic acid, excretion of, in urine by infants (Bloxam, H. R., Day, M. G., Gibbs, N. K. & Woolf, L. I.) 320
p-Hydroxyphenylacetic acid *O*-sulphate as a metabolite of tyrosine *O*-sulphate in the rat (Dodgson, K. S., Powell, G. M., Rose, F. A. & Tudball, N.) 20P
p-Hydroxyphenyl β-gentiobioside, synthesis of, from arbutin by action of β-glucosidase (Anderson, J. D., Hough, L. & Pridham, J. B.) 564
p-Hydroxyphenyl-lactic acid, excretion of, in urine by infants (Bloxam, H. R., Day, M. G., Gibbs, N. K. & Woolf, L. I.) 320
p-Hydroxyphenylpyruvic acid, excretion of, in urine by infants (Bloxam, H. R., Day, M. G., Gibbs, N. K. & Woolf, L. I.) 320
Hydroxy[3-^{14}C]pyruvate, preparation of (Batt, R. D., Dickens, F. & Williamson, D. H.) 272

Infrared spectra of brain phosphatidylserine (Kimura, Y. & Nagai, Y.) 3
Insulin and an inhibitor of glucose uptake, in protein fractions of normal human plasma (Vargas, L., Taylor, K. W. & Randle, P. J.) 43
Insulin, plasma content of (Manchester, K. L. & Young, F. G.) 386
Ion-exchange reactions between cartilage and cations (Dunstone, J. R.) 164
Ions, effects of chelating agents and, on oxidase activity of caeruloplasmin (Curzon, G.) 66
Intestine, small, rat, hydrolysis of dipeptides by different regions of (Robinson, G. B. & Shaw, B.) 351
Iron, acid phosphatase in tissues of animals injected with (Golberg, L., Martin, L. E. & Batchelor, A.) 252

Kephalin and lecithin fractions, phospholipids of ox spleen with special reference to the fatty acid and fatty aldehyde compositions of (Gray, G. M.) 82
Kephalins, brain, preparation of hydrophilic colloids of (Kimura, Y. & Nagai, Y.) 1
Kidney, effect of growth on chemical composition of (Widdowson, E. M. & Dickerson, J. W. T.) 30
Kidney extract, hog, fractionation of C-esterase from (Bergmann, F. & Rimon, S.) 209
Kinases, phosphorylating, of neoplastic and normal cells, some characteristics of (Bianchi, P., Butler, J. A. V., Crathorn, A. R. & Shooter, K. V.) 15P

Lecithin and kephalin fractions, phospholipids of ox spleen with special reference to the fatty acid and fatty aldehyde compositions of (Gray, G. M.) 82
Leuconostoc mesenteroides, metabolism of nicotinic acid and nicotinamide by (Sundaram, T. K., Rajagopalan, K. V., Pichappa, C. V. & Sarma, P. S.) 145
Lipase activity, clearing-factor, effect of changes in nutritional state on, of homogenates and extracts of rat adipose tissue (Robinson, D. S. & Salaman, M. R.) 8P
Lipid peroxidation in dialuric acid-induced haemolysis of vitamin E-deficient erythrocytes (Bunyan, J., Green, J., Edwin, E. E. & Diplock, A. T.) 47
Lipids, faecal, determination of cholesterol and coprosterol in (Gerson, T.) 446
Lipoyl dehydrogenase (diaphorase), intermediates in catalytic action of (Massey, V., Gibson, Q. H. & Veeger, C.) 341
Liver catalase, mouse, permeability of large-granule membranes to, *in vitro* (Adams, D. H. & Burgess, E. A.) 247
Liver-cell sap, effect of protein intake on ribonucleic acid of (Prosser, E. J. T., Mallinson, A. C. & Munro, H. N.) 24P
Liver, effect of growth on chemical composition of (Widdowson, E. M. & Dickerson, J. W. T.) 30
Liver, female rat, 'conjugate' formation during metabolism of [4-^{14}C]progesterone by (Cooke, B. A. & Taylor, W.) 21P
Liver, guinea-pig, microsome fraction of, incorporation of radioactive amino acids into proteins of (Simkin, J. L. & Sutton, C. R.) 489
Liver, oxidation of β-phenylethanol by alcohol dehydrogenase of (MacLeod, L. D.) 10P
Liver, rat, endogenous sulphate acceptors in (Spencer, B.) 294
Liver, rat, fatty acid composition of phospholipids from subcellular particles of (Macfarlane, M. G., Gray, G. M. & Wheeldon, L. W.) 626
Liver, rat, transfer of soluble ribonucleic acid to microsomes in a system *in vitro* from (Smith, C. J. & Reid, E.) 19P
Liver tissue of rat, metabolism of D- and L-[3-^{14}C]glycerate by (Dickens, F. & Williamson, D. H.) 356
Lysine, available, estimation of, in animal-protein foods (Carpenter, K. J.) 604

Magnesium intake, increased, response to (Heaton, F. W.) 1P
Malate synthetase of *Aspergillus niger* (Collins, J. F. & Kornberg, J. F.) 430
Malate synthetase of *Escherichia coli* (Kornberg, H. L., Phizackerley, P. J. R. & Sadler, J. R.) 438
Maltose, inhibition and action pattern of β-amylase in the presence of (Misra, U. K. & French, D.) 1P
Mammary glands of pregnant and lactating rats, levels and distribution of acid-soluble ribonucleotides in (Wang, D. Y. & Greenbaum, A. L.) 552
Mannose in cell wall of *Hydrodictyon africanum* (Northcote, D. H., Goulding, K. J. & Horne, R. W.) 503
Mannose, presence of, in hen's-egg albumin (Johansen, P. G., Marshall, R. D. & Neuberger, A.) 239
Membranes, large-granule, permeability of, to mouse-liver catalase *in vitro* (Adams, D. H. & Burgess, E. A.) 247
Methanesulphonyl esters, biochemical studies with (Briggs, D. E.) 186
Methionine, cobalamin and enzymic formation of a factor concerned in synthesis of, by *Escherichia coli* (Guest, J. R. & Woods, D. D.) 422
2-Methoxyoestrone, quantitative determination of, in human urine (Givner, M. L., Bauld, W. S. & Vagi, K.) 406
2-Methoxyoestrone, quantitative fractionation of mixtures of, with other oestrogens (Givner, M. L., Bauld, W. S. & Vagi, K.) 400

Metmyoglobin, protein from leaves catalysing reduction of, by illuminated chloroplasts (Davenport, H. E.) 471
Microsome fraction of guinea-pig liver, incorporation of radioactive amino acids into proteins of (Simkin, J. L. & Sutton, C. R.) 489
Microsomes, changes in components of, accompanying cell differentiation (Loening, U. E.) 20P
Microsomes in a system from rat liver *in vitro*, transfer of soluble ribonucleic acid to (Smith, C. J. & Reid, E.) 19P
Microsomes, ox-liver, presence of sulphatases A and B in (Roy, A. B.) 380
Mitochondria, distribution of glycolytic enzymes in preparations of (Johnson, M. K.) 610
Mitochondria, ox-liver, presence of sulphatases A and B in (Roy, A. B.) 380
Mitochondria, pea-root, polarographic measurement of oxygen uptake by (Stickland, R. G.) 636
(+)-Mollisacacidin, radial distribution of, in wattle heartwood (Roux, D. G. & Paulus, E.) 315
Mucopeptide biosynthesis by *Staphylococcus aureus* (Rogers, H. J. & Perkins, H. R.) 448
Muscle, amino acid-activating enzymes in (Pennington, R. J.) 205
Muscle, codling, acid-soluble nucleotides of (Jones, N. R. & Murray, J.) 567
Muscle, partial purification of carnosine–anserine synthetase of (Stenesh, J. J. & Winnick, T.) 575
Mustard gas, reaction of, with nucleic acids *in vitro* and *in vivo* (Brookes, P. & Lawley, P. D.) 478
Myofibrils, inhibitory action of relaxing-factor preparations on adenosine triphosphatase of (Baird, G. D. & Perry, S. V.) 262

2-[8-^{14}C]Naphthylamine, metabolic path of, in animals (Goldblatt, M. W., Henson, A. F. & Somerville, A. R.) 511
Neurospora crassa, further genetic variety of glutamic acid dehydrogenase in (Fincham, J. R. S. & Bond, P. A.) 96
Nicotinamide, metabolism of, by *Saccharomyces cerevisiae* (Sundaram, T. K., Rajagopalan, K. V., Pichappa, C. V. & Sarma, P. S.) 145
Nicotinic acid, metabolism of, by *Saccharomyces cerevisiae* and *Leuconostoc mesenteroides* (Sundaram, T. K., Rajagopalan, K. V., Pichappa, C. V. & Sarma, P. S.) 145
Nitrate reductase and related enzymes in *Escherichia coli* (Heredia, C. F. & Medina, A.) 24
Nitrate reduction in *Pseudomonas aeruginosa* (Fewson, C. A. & Nicholas, D. J. D.) 3P
Nitrite reductase from *Pseudomonas aeruginosa* (Walker, G. C. & Nicholas, D. J. D.) 4P
Nitrogen, photofixation of, by thiosulphate during bacterial photosynthesis (Arnon, D. I., Losada, M., Nozaki, M. & Tagawa, K.) 23P
C-Nitroso compounds, aromatic, reactions of, with haemoglobin (Gibson, Q. H.) 519
Nucleic acid in mammalian cells, inhibitor studies on time sequence of synthesis of (Paul, J. & Hagawira, A.) 21P
Nucleic acid, sites of synthesis of, in infected Krebs-2 ascites-tumour cells (Bellett, A. J. D. & Burness, A. T. H.) 17P
Nucleic acids, inhibition of incorporation of ^{14}C-labelled purines into, by a substituted pyrimidine (Newton, B. A.) 17P
Nucleic acids, reaction of mustard gas with, *in vitro* and *in vivo* (Brookes, P. & Lawley, P. D.) 478
Nuclei, enzymic composition of, isolated from radiosensitive and non-sensitive tissues with special reference to catalase activity (Creasey, W. A.) 5
Nucleotide sequences, frequencies of, in deoxyribonucleic acids (Burton, K.) 547
Nucleotides, acid-soluble, of codling muscle (Jones, N. R. & Murray, J.) 567
Oestradiol, changes in enzymes of uterus of ovariectomized rat after treatment with (Scott, D. B. M. & Lisi, A. G.) 52
Oestradiol-17β, quantitative determination of, in human urine (Givner, M. L., Bauld, W. S. & Vagi, K.) 406
Oestriol, quantitative determination of, in human urine (Givner, M. L., Bauld, W. S. & Vagi, K.) 406
Oestriol, quantitative fractionation of mixtures of, with other oestrogens (Givner, M. L., Bauld, W. S. & Vagi, K.) 400
Oestradiol-17β, quantitative fractionation of mixtures of, with other oestrogens (Givner, M. L., Bauld, W. S. & Vagi, K.) 400
16-*epi*Oestriol, quantitative determinations of, in human urine (Givner, M. L., Bauld, W. S. & Vagi, K.) 406
16-*epi*Oestriol, quantitative fractionation of mixtures of, with other oestrogens (Givner, M. L., Bauld, W. S. & Vagi, K.) 400
Oestrone, quantitative determination of, in human urine (Givner, M. L., Bauld, W. S. & Vagi, K.) 406
Oestrone, quantitative fractionation of mixtures of, with other oestrogens (Givner, M. L., Bauld, W. S. & Vagi, K.) 400
Organophosphorus poisoning, mode of recovery of brain cholinesterase *in vivo* after (Blaber, L. C. & Creasey, N. H.) 597
Organophosphorus poisoning, mode of recovery of erythrocyte cholinesterase *in vivo* after (Blaber, L. C. & Creasey, N. H.) 591
Osteoclastoma, phosphatase activity in (Jeffree, G. M.) 2P
Ovariectomized rat, changes in enzymes of uterus of, after treatment with oestradiol (Scott, D. B. M. & Lisi, A. G.) 52
16-Oxo-oestradiol-17β, quantitative fractionation of mixtures of, with other oestrogens (Givner, M. L., Bauld, W. S. & Vagi, K.) 400
Oxidase activity of caeruloplasmin, effects of ions and chelating agents on (Curzon, G.) 66
Oxygen uptake by pea-root mitochondria, polarographic measurement of (Stickland, R. G.) 636

Palitantin, biosynthesis of (Chaplen, P. & Thomas, R.) 91
Pea-root mitochondria, polarographic measurement of oxygen uptake by (Stickland, R. G.) 636
Permeability of large-granule membranes to mouse-liver catalase *in vitro* (Adams, D. H. & Burgess, E. A.) 247
Pernicious anaemia, reduction of oxidized glutathione in erythrocyte haemolysates in (Jocelyn, P. C.) 363
β-Phenylethanol, oxidation of, by alcohol dehydrogenase of liver (MacLeod, L. D.) 10P
Phosphatase activity in an osteoclastoma (Jeffree, G. M.) 2P
Phosphatase activity in bones of hyperparathyroid monkeys (Jeffree, G. M.) 2P
Phosphate esters, fractionation of, on ion-exchange resin by a system of pH-gradient elution (Wade, H. E.) 534
Phosphatidylserine, brain, infrared spectra of (Kimura, Y. & Nagai, Y.) 3
Phosphodiesterase, effect of, on capacity of soluble ribonucleic acid to accept amino acids (Herbert, E.) 14P
Phosphogluconate dehydrogenase, activity of, in rat uterus (Scott, D. B. M. & Lisi, A. G.) 52
Phospholipase A activity, estimation of, in aqueous systems (Magee, W. L. & Thompson, R. H. S.) 526
Phospholipids fatty acid composition of, from subcellular particles of rat liver (Macfarlane, M. G., Gray, G. M. & Wheeldon, L. W.) 625
Phospholipids of erythrocyte 'ghosts' (Dawson, R. M. C., Hemington, N. & Lindsay, D. B.) 226
Phospholipids of ox spleen with special reference to the fatty acid and fatty aldehyde compositions of the lecithin and kephalin fractions (Gray, G. M.) 82
Phosphoprotein phosphatase in cerebral tissues (Rose, S. P. R. & Heald, P. J.) 8P

Phosphorylating kinases of neoplastic and normal cells, some characteristics of (Bianchi, P., Butler, J. A. V., Crathorn, A. R. & Shooter, K. V.) 15P
Photosynthesis, bacterial, photofixation of nitrogen and photoproduction of hydrogen by thiosulphate during (Arnon, D. I., Losada, M., Nozaki, M. & Tagawa, K.) 23P
Plasma, human, insulin and an inhibitor of glucose uptake in protein fractions of (Vargas, L., Taylor, K. W. & Randle, P. J.) 43
Plasma, normal human-blood, nature of 'cholesterol' in (Greig, M. & Cook, R. P.) 16P
Polynucleotide phosphorylase, mode of action of (Grunberg-Manago, M.) 13P
Polynucleotide synthesis, chemical aspects of (Michelson, A. M.) 13P
Polypeptidyl gelatins, role of rigidity in antigenicity of (Sela, M. & Arnon, R.) 394
Polystyrene preparations, cross-linked, immunochemically active (Kent, L. H. & Slade, J. H. R.) 12
[4-^{14}C]Progesterone, 'conjugate' formation during metabolism of, by female rat liver *in vitro* (Cooke, B. A. & Taylor, W.) 21P
Progesterone metabolism in cat (Taylor, W. & Scratcherd, T.) 22P
Protease, purification and properties of a, from gut of *Etroplus suratensis* (Sundaram, S. & Sarma, P. S.) 465
Protein fractions of normal human plasma, insulin and an inhibitor of glucose uptake in (Vargas, L., Taylor, K. W. & Randle, P. J.) 43
Protein in infected Krebs-2 ascites-tumour cells, sites of synthesis of (Bellett, A. J. D. & Burness, A. T. H.) 17P
Protein intake, effect of, on ribonucleic acid of liver-cell sap (Prosser, E. J. T., Mallinson, A. C. & Munro, H. N.) 24P
Protein of rat diaphragm, influence of alloxan-diabetes on incorporation of amino acids into (Manchester, K. L. & Young, F. G.) 386
Protein solutions, effect of, on oxidation of glutathione in oxygenated erythrocytes (Jocelyn, P. C.) 368
Protein synthesis in mammalian cells, inhibitor studies on time sequence of (Paul, J. & Hagiwara, A.) 21P
Protein, synthesis of, in a purine-requiring *Escherichia coli* infected with bacteriophage T2 (Fessler, L. I., Kelemen, M. V. & Burton, K.) 558
Proteins, attachment of, to cells tanned with pyruvic aldehyde (Ling, N. R.) 12P
Proteins, incorporation of radioactive amino acids into, of microsome fraction of guinea-pig liver (Simkin, J. L. & Sutton, C. R.) 489
Pseudomonas aeruginosa, degradation and synthesis of γ-aminobutyric acid by (Bachrach, U.) 417
Pseudomonas aeruginosa, nitrate reduction in (Fewson, C. A. & Nicholas, D. J. D.) 3P
Pseudomonas aeruginosa, nitrite reductase from (Walker, G. C. & Nicholas, D. J. D.) 4P
Pseudomonas cytochrome *c*-551, crystalline, preparation of, and its general properties (Horio, T., Higashi, T., Sasagawa, M., Kusai, K., Nakai, M. & Okunuki, K.) 194
Purines, ^{14}C-labelled, inhibition of incorporation of, into nucleic acids by a substituted pyrimidine (Newton, B. A.) 17P
β-Pyrazol-1-ylalanine from water-melon seeds (Noe, F. F. & Fowden, L.) 543
β-Pyrazol-1-ylalanine, nuclear-magnetic-resonance spectrum of (Ridd, J. H. & White, R. F. M.) 546
Pyridine nucleotide, studies on biosynthesis of (Sundaram, T. K., Rajagopalan, K. V., Pichappa, C. V. & Sarma, P. S.) 145
Pyrimidine metabolism in parasitic flatworms (Campbell, J. W.) 105
Pyruvic aldehyde, attachment of proteins to cells tanned with (Ling, N. R.) 12P
Relaxing-factor preparations, inhibitory action of, on myofibrillar adenosine triphosphatase (Baird, G. D. & Perry, S. V.) 262
Ribonucleic acid, biosynthesis of (Burdon, R. H.) 14P
Ribonucleic acid of liver-cell sap, effect of protein intake on (Prosser, E. J. T., Mallinson, A. C. & Munro, H. N.) 24P
Ribonucleic acid, soluble, effect of phosphodiesterase on capacity of, to accept amino acids (Herbert, E.) 14P
Ribonucleic acid, soluble, pyrophosphorolysis of (Canellakis, E. S.) 14P
Ribonucleic acid, soluble, transfer of, to microsomes in a system *in vitro* from rat liver (Smith, C. J. & Reid, E.) 19P
Ribonucleotides, acid-soluble, levels and distribution of, in mammary glands of pregnant and lactating rats (Wang, D. Y. & Greenbaum, A. L.) 552
Ring D α-ketolic oestrogens, quantitative determination of, in human urine (Givner, M. L., Bauld, W. S. & Vagi, K.) 406
Ring D α-ketolic oestrogens, quantitative fractionation of mixtures of, with other oestrogens (Givner, M. L., Bauld, W. S. & Vagi, K.) 400

Saccharomyces cerevisiae, metabolism of nicotinic acid and nicotinamide by (Sundaram, T. K., Rajagopalan, K. V., Pichappa, C. V. & Sarma, P. S.) 145
Saccharomyces cerevisiae, purification and properties of tyrosine–2-oxoglutarate transaminase of (SentheShanmuganathan, S.) 619
Salicin, formation of *o*-hydroxybenzyl β-glucopyranoside from (Anderson, J. D., Hough, L. & Pridham, J. B.) 564
Salicylate congeners and uncoupling activity (Brostoff, D. V., Moses, V. & Smith, M. J. H.) 5P
Sedimentation coefficients, a graphical method for rapid determination of (Markham, R.) 516
L-[3-^{14}C]Serine, preparation of (Batt, R. D., Dickens, F. & Williamson, D. H.) 272
Serine residue, reactive, amino acid sequence around, of proteolytic enzymes (Naughton, M. A., Sanger, F., Hartley, B. S. & Shaw, D. C.) 149
Serine transhydroxymethylase, spectrophotometric study of reaction catalysed by (Blakley, R. L.) 459
Silica, soluble, micro-determination of, in urine (Paul, J.) 202
Skin, effect of growth on chemical composition of (Widdowson, E. M. & Dickerson, J. W. T.) 30
Skin, mechanism of glucuronide synthesis in (Stevenson, I. H. & Dutton, G. J.) 19P
Spinach chloroplasts, synthesis of glycollic acid by (Zelitch, I.) 11P
Spleen, ox, phospholipids of, with special reference to the fatty acid and fatty aldehyde compositions of the lecithin and kephalin fractions (Gray, G. M.) 82
Staphylococcus aureus, 5-fluorouracil and mucopeptide biosynthesis by (Rogers, H. J. & Perkins, H. R.) 448
Sulphatases A and B, intracellular distribution of (Roy, A. B.) 380
Sulphate acceptors, endogenous, in rat liver (Spencer, B.) 294
Sulphite, effect of, on polymerization of urease (Creeth, J. M. & Nichol, L. W.) 230
Sulphite in fungi (Spencer, B. & Harada, T.) 305
Sulphokinase in rat liver (Spencer, B.) 294
Sulphur metabolism of fungi, role of choline sulphate in (Spencer, B. & Harada, T.) 305

Taurocyamine of mammalian brain (Blass, J. P.) 484
Tetrahydropteroylglutamic acid, function of, in the reaction catalysed by serine transhydroxymethylase (Blakley, R. L.) 459
[^{14}C]Tetritols, preparation and degradation of specifically labelled (Batt, R. D., Dickens, F. & Williamson, D. H.) 272

Tetritols, utilization of, by rat tissues (Batt, R. D., Dickens, F. & Williamson, D. H.) 281
[^{14}C]Tetroses, preparation and degradation of specifically labelled (Batt, R. D., Dickens, F. & Williamson, D. H.) 272
Tetroses, utilization of, by rat tissues (Batt, R. D., Dickens, F. & Williamson, D. H.) 281
Thiosulphate, photofixation of nitrogen and photoproduction of hydrogen by, during bacterial photosynthesis (Arnon, D. I., Losada, M., Nozaki, M. & Tagawa, K.) 23P
L-Threitol, preparation of specifically labelled (Batt, R. D., Dickens, F. & Williamson, D. H.) 272
Thymine, degradation of, by rat tapeworm (Campbell, J. W.) 105
Thymus, calf, improved fractionations of arginine-rich histones from (Johns, E. W., Phillips, D. M. P., Simpson, P. & Butler, J. A. V.) 631
Thyroxine dehalogenase, partial purification and properties of (Tata, J. R.) 214
Tobacco mosaic virus, reaction *in vitro* and *in vivo* of nucleic acids of, with mustard gas (Brookes, P. & Lawley, P. D.) 478
Torula, effects of prolonged oxygenation on the cytochrome and enzyme systems of (Scutt, P. B.) 6P
Transhydrogenase, activity of, in rat uterus (Scott, D. B. M. & Lisi, A. G.) 52
1:1:1-Trichloro-2:2-di-(*p*-chlorophenyl)ethane (DDT) and rat adipose tissue (Parker, V. H.) 74
Triphosphopyridine nucleotide, protein from leaves catalysing reduction of, by illuminated chloroplasts (Davenport, H. E.) 471
Trypsin, di*iso*propoxy[^{32}P]phosphinyl derivatives of (Naughton, M. A., Sanger, F., Hartley, B. S. & Shaw, D. C.) 149
Tumour cells, infected Krebs-2 ascites, sites of synthesis of a nucleic acid and a protein in (Bellett, A. J. D. & Burness, A. T. H.) 17P
Tumour, Ehrlich ascites, reaction *in vitro* and *in vivo* of nucleic acids of, with mustard gas (Brookes, P. & Lawley, P. D.) 478
Tungsten, determination of, in biological material by activation analysis (Bowen, H. J. M.) 79
Tyrosine in infants on a normal diet, an inborn defect in metabolism of (Bloxam, H. R., Day, M. G., Gibbs, N. K. & Woolf, L. I.) 320
Tyrosine–2-oxoglutarate transaminase, of *Saccharomyces cerevisiae*, purification and properties of (SentheShanmuganathan, S.) 619
Tyrosine *O*-sulphate in the rat, metabolism of (Dodgson, K. S., Powell, G. M., Rose, F. A. & Tudball, N.) 20P

Uracil, degradation of, by rat tapeworm (Campbell, J. W.) 105
Urease, chemical interaction of, in solution (Creeth, J. M. & Nichol, L. W.) 230
Urine colloids, fractionation of, on anion-exchange cellulose (Anderson, A. J., Lepper, M. H. & Winzler, R. J.) 581
Urine, human, quantitative determination of 2-methoxyoestrone, oestrone, ring D α-ketolic oestrogens, oestradiol-17β, 16-*epi*oestriol and oestriol in (Givner, M. L., Bauld, W. S. & Vagi, K.) 406
Urine, micro-determination of soluble silica in (Paul, J.) 202
Uterus of ovariectomized rat, changes in enzymes of, after treatment with oestradiol (Scott, D. B. M. & Lisi, A. G.) 52

Vitamin E-deficient erythrocytes, lipid peroxidation in dialuric acid-induced haemolysis of (Bunyan, J., Green, J., Edwin, E. E. & Diplock, A. T.) 47

Water-melon seeds, β-pyrazol-1-ylalanine from (Noe, F. F. & Fowden, L.) 543
